

## 1. Homepage

- **Purpose:** Serves as the gateway to the LMS, providing a snapshot of what learners can expect.
- **Features:**
  - Dynamic sliders or banners highlighting key courses or features.
  - Quick search bar for immediate access to course catalogs.
  - Login/registration prompts to personalize the learning experience.
  - News or updates section to keep users informed about new courses or changes.
  - Access to testimonials and reviews to build trust and credibility.

## 2. Course Listing Page

- **Purpose:** Catalogs all available courses in an organized and searchable format.
- **Features:**
  - Filters and sorting options by subject, popularity, or date added.
  - Thumbnails with course previews, brief descriptions, and key information like duration and difficulty level.
  - Direct links to detailed individual course pages.
  - Option for users to rate or bookmark courses for later.

## 3. Individual Course Pages

- **Purpose:** Provides detailed information about each course and hosts the learning materials.
- **Features:**
  - Embedded or linked training videos.
  - Downloadable resources such as PDFs, slides, or additional reading materials.
  - Course syllabus and detailed schedule.
  - Section for learner feedback, Q&A, and discussion.
  - Instructions for obtaining certifications or credits upon course completion.

## 4. Training Video Integration

- **Purpose:** To facilitate an engaging and interactive learning experience through multimedia.
- **Features:**
  - High-quality video content that is accessible on all devices.
  - Interactive elements within videos such as quizzes or pauses for reflection.
  - Ability to track progress through videos.
  - Download options for offline viewing.

## 5. PDF Resource Upload

- **Purpose:** Allows instructors and administrators to upload and learners to download course materials.
- **Features:**
  - Secure storage and easy access to PDF files.
  - Categorization of PDFs under relevant course sections.
  - Options for users to print or save PDFs directly from the browser.

## 6. Internet Cafe Locator

- **Purpose:** Helps users find local internet cafes where they can access courses for free, addressing connectivity issues.
- **Features:**
  - Interactive map with cafe locations.
  - Detailed information on each location, including hours of operation, facilities available, and contact information.
  - User-generated reviews and ratings of each cafe's facilities.

## 7. User Registration/Login

- **Purpose:** Manages user profiles and personalizes the learning experience.
- **Features:**
  - Secure sign-up and login process.
  - Profile management where users can track their progress, join courses, and adjust their learning paths.

- Integration with social media for easier account management and sharing.

## 8. Responsive Design

- **Purpose:** Ensures the website is functional and visually appealing across all devices.
- **Features:**
  - Adaptive layouts that work on desktops, tablets, and mobiles.
  - Touch-friendly interfaces.
  - Fast loading times and minimal data usage options for low bandwidth situations.

## 9. Basic SEO Optimization

- **Purpose:** To improve the website's visibility on search engines and attract more users.
- **Features:**
  - Proper use of meta tags, alt attributes, and structured data.
  - Keyword optimization for educational content.
  - SEO-friendly URLs and sitemaps to aid in site indexing.

## 10. Admin Panel

- **Purpose:** Enables site administrators to manage and update website content and user interactions efficiently.
- **Features:**
  - Tools to add or modify course content and descriptions.
  - User management capabilities to oversee registrations, progress, and feedback.
  - Analytics and reporting tools to track site usage and learning outcomes.
